To,  
The chief officer,  
Water for small Village Inc.  
7405 st. Andrews road,  
Lake worth, Florida 33467

Sub: Providing for pure drinking water.

Dear Sir/Maam

With due respect and humble submission we the village citizen of Nunakot District, Chaughad a v.d.c. Ward No 4 would like to request you to help us for the accessibility of drinking water in our locality.

Sir, Maam we near about 2300 people of 200 families are facing severe problem and scarcity of basic drinking water since there are no reliable sources of water near by. The source which we were utilizing also dried after the devastating earthquake of last year.

The sources of water which could be brought to our village would be expensive or in other world it is beyond our reach.

So we all the people who are bearing this problem would like to plead and expect your kindness and positive attitude on the humanitarian basis towards us.

Thanking you.

Your faithfully  
Citizen of Chaughad a v.d.c. Anpchar.
